Nonconforming Lots (Section 5.09):

A Nonconforming Lot is a lot that was subdivided before adoption, or amendment, of the Zoning Ordinance and which, after adoption or amendment of the Zoning Ordinance, does not meet the requirements of the district in which it is located. Notwithstanding limitations imposed by other provisions of this Ordinance, in any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single Lot of record at the effective date of adoption or amendment of this Ordinance. Such Lot must be in separate ownership and not of continuous frontage with other vacant lots in the same ownership. Where possible, contiguous parcels under common ownership shall be re-platted to create conforming Lots. This provision shall apply even though such Lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements (other than those applying to area or width, or both), of the lot shall conform to the regulations for the district in which such lot is located. Variance of yard requirements shall be obtained only through action of the Board of Zoning Appeals.

Please use the space provided below to supply any additional information not included on Page two:
